TECHNICAL DATA SHEET

BIOPAL®

TDS NO: PG-QMS-TDS-007
Rev: 00
Date: 01-01-2025

Description

BIOPAL is also known as Bio Pallet or paper pallet or honeycomb pallet. BIOPAL is used for shipping and transportation of various products. BIOPAL is a lightweight platform used to carry goods in displays and warehouses, racking or in the factory store. The BIOPAL is designed to be handled using a pallet jack, forklift and battery-operated lifters. As per ISPM15 law and regulations, no fumigation or treatment is required thus resulting in a lower cost compared to wood alternatives.

BIOPAL comes in two types:

BIOPAL-H

Designed for heavy loads and frequent movement. The BIOPAL-H is designed with an edgeboard frame thus increasing its strength for more demanding transportation and logistics operations.

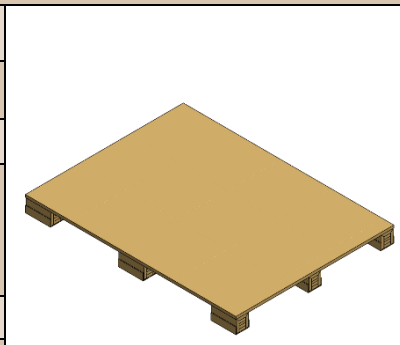

BIOPAL-L

Designed for lighter loads while retaining stability and stiffness. BIOPAL-L is an excellent choice for less demanding logistic operations and offers a more economical choice.

Composition

BIOPAL is 100% recyclable and made of 80% recycled materials. **BIOPAL** is made of different types of paper and glue.

Specifications

Product Type	**BIOPAL**		
Dimension	(L)400 – 5000 mm x (W)400 – 1600 mm	-5mm, +10mm	
Forklift Entry	4 way or 2 way		
Legs Height	100, 75, 50 mm		
Material Construction	Board Thickness: 20mm (440GSM) Edgeboard Frame: 99x50x5.0 for Biopal-H only HEXA³ Bio-degradable Waterborne Glue		
Natural Colour	Brown Bio-Kraft		
Options	With PACFLAT or PACOR (for conveyor application) Water Repellent Fire Retardant		

Length and Width dimensions, and other specifications of the BIOPAL can be customised according to customer requirements

BIOPAL is a product of **Pacfort Packaging Industries LLC**. It does not contain any dangerous elements or heavy metals such as lead, mercury and hexavalent chromium nor chlorophenols or derivatives.
